

Radon

interactive kiosk

When floorspace is at a premium

The NeoProducts **Radon** is a slimline, information kiosk designed with space consciousness in mind. The **Radon** is designed for maximum flexibility in configuration and is therefore easily adaptable to suit many applications and self-service environments.

Designed to offer ease of serviceability, the **Radon's** modular construction allows easy on-site component replacement with minimal disruption.

Users can interact with the kiosk by using the touch screen and a range of internal devices or peripherals. The **Radon** comes standard with a 15" or 17" Panel PC. It can be optionally fitted with a thermal receipt printer, and static signage panel.

Easily Serviceable

As with all Neo kiosks, the **Radon** is designed to be easily serviced with a keyed rear access door for access to the internal printer and CD/DVD drive

Radon
